Project Status

The Bolles East (L-16) Canal Conveyance Improvement project is ongoing and has been separated into four (4) segments. Construction of each segment involves installation of erosion and sedimentation controls, road and farm ditch relocation, compartmentalized dewatering, substrate blasting, mechanical excavation, final grading, and site stabilization. Construction of the 6,300' long Segment 1 began in August 2015. As of April 30, 2016, Segment 1 construction was 92.3% compete, and was expected to be substantially complete by September 2016. Construction of the 5,750' long Segment 2 will begin in July 2016, and is expected to be substantially complete in March 2017. Segment 3 is currently being designed, and construction is expected to start in December 2018. Design of Segment 4 has not yet started, however, all

segments will be completed in advance of the December 31, 2024 Restoration Strategies Activity Milestone.
